MEMORANDUM FOR: Development Branch Personnel

X1 SUBJECT : OSA [ ] with [ ] First Quarterly Report 25X  
for FY-64.

X1 1. Subject report is routed for your information. This is the  
program upon which our [ ] contract is based.

X1 2. This report should give us a better "feel" for the operation  
of such a program. You will note there is a lot of freedom and versa-  
X1 tility implicit here. The [ ] program gives you the opportunity to  
initiate significant R&D, with minimum paper work and administrative  
constraint. Even the security problems are already solved!

X1 3. The [ ] program is lagging far behind; unless we back-up  
the existing projects and communicate some additional problem areas,  
we'll be in another "tail-wagging-the-dog" situation.

4. Your comments and ideas regarding this program would be  
appreciated.
